96 %	94 %	3	8
Windows at January level	devices compliant	policy changes, all approved	devices without contact, with deadline

When you receive this document: In the first week of every month, in the monthly service.

Summary

The pilot ring received the January updates on 14 January without findings, the broad ring on 17 January, the late ring on 21 January. Eight devices have had no contact for over 30 days; their contacts have a deadline of 15 February. The time recording application was brought to version 7.4 after its contact had tested it in the pilot ring. Three policy changes were announced, approved and implemented.

Updates by ring

RING	DEVICES	JANUARY LEVEL	OPEN	NOTE
Pilot	12	12	0	No disruption reported
Broad	168	163	5	5 devices without contact since December, deadline 15 February
Late	29	26	3	3 field devices, installation at next contact
Apps	209	Catalog 100 %	0	Time recording 7.4 after approval on 20 January

Policy changes

- CN-07: compliance now checks the Defender status, grace period 5 days. Approved 8 January, active since 12 January.
- CN-08: Windows 11 baseline updated to version 25H2. Approved 15 January, pilot 16 January, broad 22 January.

- CN-09: Apple devices, minimum version iOS 19 from 1 March. Approved 27 January, notice to users on 2 February.

Next steps

Next Patch Tuesday on 10 February 2027; report in the first week of March. The eight devices without contact are removed from the inventory on 16 February if nobody responds by then.
